

Insect Repellent Permission Slip

Dear Parents,

At your request, the OTR staff will apply insect repellent to your child after nap, prior to afternoon play. It is your responsibility to apply insect repellent to your child in the morning, prior to coming to OTR.

I authorize the staff at Over the Rainbow Nursery School to apply the following Insect repellent:

Insect Repellent Name: _____
(Please specify the brand you will provide)

Child's Name: _____

Parent Signature: _____

Date: _____

Please be aware of the recommendation frequently made by manufacturers that insect repellent be rinsed off a child as soon as the child is indoors and no longer exposed. Please understand that this is not feasible in a group child care setting, especially after taking into consideration the numerous times the children go in and out during the course of the day.

PLEASE NOTE:

Our health care consultant recommends that a tick not be removed by an Over the Rainbow Nursery school staff member. If a tick should be found on your child, a parent will be called. Please be sure to check your child each night for ticks as we go outside frequently.
